

## Fantasy Story: ABOUT A WOLF ...

In the heart of the enchanted forest, a lone wolf named Luna prowled under the light of a full moon. Her piercing yellow eyes scanned the landscape, seeking prey to feed her pack. Suddenly, a faint glow emanated from a nearby thicket, drawing Luna closer. She discovered a small clearing, teeming with faeries and sprites, who offered her a gift: a magical amulet that would protect her and her kin from harm. Grateful, Luna donned the amulet and continued her hunt, now empowered by the forest's magic. As she howled under the night sky, the other creatures of the forest joined in, celebrating the wolf's newfound strength and loyalty to her kin.
